TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS,
MIDDLESEX, SS.

To any Constable of the Town of Weston,

GREETING:

In the name of the Commonwealth you are hereby required to notify and warn all the inhabitants of the said town qualified by law to vote in elections and town affairs to meet in the Town Hall in said town on Monday, the 22d day of March current at 12 of the clock noon, at which time the polls will be opened and may be closed at 4 of the clock in the afternoon, to bring in to the subscribers their votes for the following town officers, each to be designated and all to be voted for in one ballot, namely:—

A town clerk for a term of three years,
One selectman for a term of three years,
One overseer of the poor for a term of three years,
One assessor for a term of three years,
One member of the school committee for a term of three years,
A treasurer and collector,
An auditor,
One library trustee for a term of three years,
A library treasurer,
One trustee of the Merriam fund for the silent poor for a term of three years,
One park commissioner for a term of three years,
One cemetery commissioner for a term of three years,
One member of the board of health for a term of three years,

Seven measurers of wood and bark,
Three surveyors of lumber,
Three fence viewers,
A pound keeper,
Five field drivers,
Seven constables, and
A tree warden.

Also to vote "Yes" or "No" in answer to the question "Shall licenses be granted for the sale of intoxicating liquors in this town?"

and for the following purposes, to wit:—

ARTICLE I. To choose by separate ballot a moderator.

ARTICLE II. To hear and act upon reports of town officers and committees.

ARTICLE III. To determine whether the town will appropriate the sum of \$200, or some other amount, and elect a director for demonstration work in agriculture and home economics, the money to be expended by, and the director to serve in co-operation with the County Trustees for Aid to Agriculture of the Middlesex County Bureau of Agriculture and Home Economies, under the provisions of Chapter 273, General Acts of 1918; it being understood that \$50 of this amount shall be used to provide local paid supervision of boys' and girls' club work.

ARTICLE IV. To determine if the town will take by purchase, or otherwise, the franchise, corporate property and all the rights and privileges of the Weston Water Company as provided for in Chapter 217 of the Acts of 1896.

ARTICLE V. To determine what action the town will take to provide additional land for Cemetery purposes, and appropriate money therefor.

ARTICLE VI. To determine what action the town will take to provide a suitable Memorial for soldiers in the World War and to appropriate money therefor.

ARTICLE VII. To determine what action the town will take relative to repairs and maintenance of the swimming pool and appropriate money therefor, or act anything relative thereto.

ARTICLE VIII. To raise and appropriate by borrowing or otherwise such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, or as may be required to defray the expenses of the town for the ensuing year; and especially to act upon all the appropriations asked for or proposed by the Selectmen or by any town officers or committees in their reports.

And you are to serve this Warrant by posting three attested copies thereof according to the vote of the Town; namely, at the Town-house, at the Kendal Green post-office, and on the town bulletin board at the junction of South Avenue and Newton Street and Park Road seven days at least before the time appointed for said meeting.

Hereof fail not; and make due return of this warrant with your doings thereon to the Selectmen at the time and place of said meeting.

Given under our hands this fourth day of March in the year of our Lord one thousand nine hundred and twenty.

(Signed) ALFRED L. CUTTING,
BENJAMIN LORING YOUNG,
HERBERT E. TYLER,
Selectmen of the Town of Weston.

BRENTON H. DICKSON, JR.,

Town Clerk.

REPORT OF THE SELECTMEN.

The Selectmen have the honor to submit the following report for the fiscal year ending December 31, 1919:—

The Board organized at a special meeting held March 31, 1919, by the choice of Mr. Alfred L. Cutting as Chairman and Mr. Herbert E. Tyler as Secretary. Stated meetings have been held as usual on the second Monday of each month. During the year 1919 the Board held sixteen formal meetings and conducted three public hearings; members of the Board have also held numerous conferences with County and State officials, and have attended hearings before Legislative Committees of the Great and General Court.

Appointments, Licenses, Etc.

The Board has made the usual appointments under the provisions of the Revised Laws of the Commonwealth. A list of these appointments will be found under the heading "Officers of the Town of Weston, 1919" on pages 4 to 7 of this volume. The Board has also appointed certain Election Officers, Ballot Clerks, and Tellers for the various elections and primaries held during the past year, and has granted various licenses, all as appears in the Town Records at the end of this volume.

Appropriations.

On account of the high cost of everything, increased appropriations are inevitable. Many of the departments have asked

for increases. We have carefully gone over the recommendations of the various departments and are of the opinion that the increases asked for are necessary under existing conditions. The largest increase asked for is for schools—the appropriation recommended being \$47,200 against \$38,700 appropriated last year. The greatest part of this increase covers increases in salaries for teachers and cost of transportation. It is unfortunate that the Town has to expend so large a sum for transportation, but, having adopted the central school system, there seems to be no way out of the situation unless transportation be restricted to a smaller number of pupils living outside of a definite area. This phase of the question has been seriously considered by the School Committee at various times but is an exceedingly difficult matter to solve in a satisfactory manner.

Junk Licenses.

Licenses to collect junk in the town of Weston have been granted to the following:—

G. Chusid, Waltham.
 Philip Levine, 22 Fountain St., Waltham.
 Mark Baker, 134 Charles St., Waltham.
 A. Holicker, 66 Charles St., Waltham.
 Morris Roiter, 23 Beach Street, Newton.

Dealing in junk by any person other than one of the above named is unauthorized and illegal. Complaint should at once be made to the Board and to the Chief of Police of all violations of this law.

Sale of South School House and Lot.

At the annual Town Meeting held March 24, 1919, the Town voted to authorize the Selectmen to sell the South School house and land. This authority was exercised and the property was sold to Mr. John W. Foster for the sum of fifteen hundred dollars, which sum was turned into the treasury of the Town.

Gifts to the Town.

The Town has been fortunate in receiving several valuable gifts during recent years. Mr. Horace S. Sears, in addition to his former generous gifts, has during the past year made substantial gifts to the Town which were used in improving the acoustics of the Town Hall and developing the Town Common.

Miss Marian R. Case, Miss Louise W. Case, and the late Mrs. Caroline S. Freeman made generous gifts to the Town for the improvement of the junction of School and Wellesley Streets.

At a meeting of the Public Safety Committee held July 30, 1919, it was voted to present to the Town the sum of \$514.74 as a contribution towards a memorial to the soldiers in the late World War.

On December 19, 1919, the sum of \$67.59, balance on hand from the Weston Canning Kitchen, was also presented to the Town, as a contribution towards a Soldiers' Memorial, by the Weston Women's Committee of the Council of National Defense, under whose direction the Kitchen was operated.

The Selectmen, in behalf of the Town, gratefully acknowledge all of these generous gifts.

Reduction of Town Debt.

At the special Town Meeting held August 13, 1918, the Town appropriated the sum of \$25,000 for the purchase and retirement of outstanding bonds. Pursuant to that authority the

Selectmen have purchased and cancelled the following Town Hall bonds, in addition to those enumerated in the last annual report:—

Bond No. 25, due Mar. 1, 1923, with 7 coupons attached							
“ “ 26, “ “ “, 1923, “ 7 “ “							
“ “ 35, “ “ “, 1925, “ 11 “ “							
“ “ 36, “ “ “, 1925, “ 11 “ “							
“ “ 41, “ “ “, 1927, “ 15 “ “							
“ “ 42, “ “ “, 1927, “ 15 “ “							

The Selectmen recommend that an appropriation of \$3,000 be made at the annual Town Meeting, and, if the financial condition of the Town warrants it, further recommendations in the matter will be laid before the Town at a later date.

Highways.

The system of caring for our highways as developed by Superintendent of Streets, Raymond W. Coburn, has been successfully carried out during the past year and the Town, as well as the Superintendent, is to be congratulated on the splendid condition of the highways throughout the Town. The unusually severe snowstorms since the first of the year makes necessary the appropriation of a much larger sum for snow than was contemplated when Mr. Coburn made his report to the Selectmen.

Special Article in the Warrant.

Article IV is inserted in the warrant on petition of the requisite number of voters of the Town as required by law.

BENJAMIN LORING YOUNG,
HERBERT E. TYLER,
Selectmen of the Town of Weston.

REPORT OF THE COMMITTEE ON MEMORIAL TO SOLDIERS IN THE WORLD WAR

The Committee appointed to report regarding a Memorial to the men of Weston who served and died in the service of their country during the Great War submit the following:—

The Committee organized and elected Harold S. Graves as Chairman.

After looking into the various forms which memorials of this character were taking your Committee voted that a well-designed flagpole with a substantial base would be a beautiful and dignified form of expression.

Your committee consulted with Samuel W. Mead, architect, who submitted a design for a flagpole ninety feet high, to be of wood twenty inches in diameter and tapering to the top. The base to be of cast bronze ten feet high with suitable space for inscriptions and lettering at proper height for reading. There will be a series of three granite steps surrounding the base.

No definite location is suggested in this report, although several sites were considered by the Committee.

The estimated cost of this design is Thirteen Thousand Dollars (\$13,000).

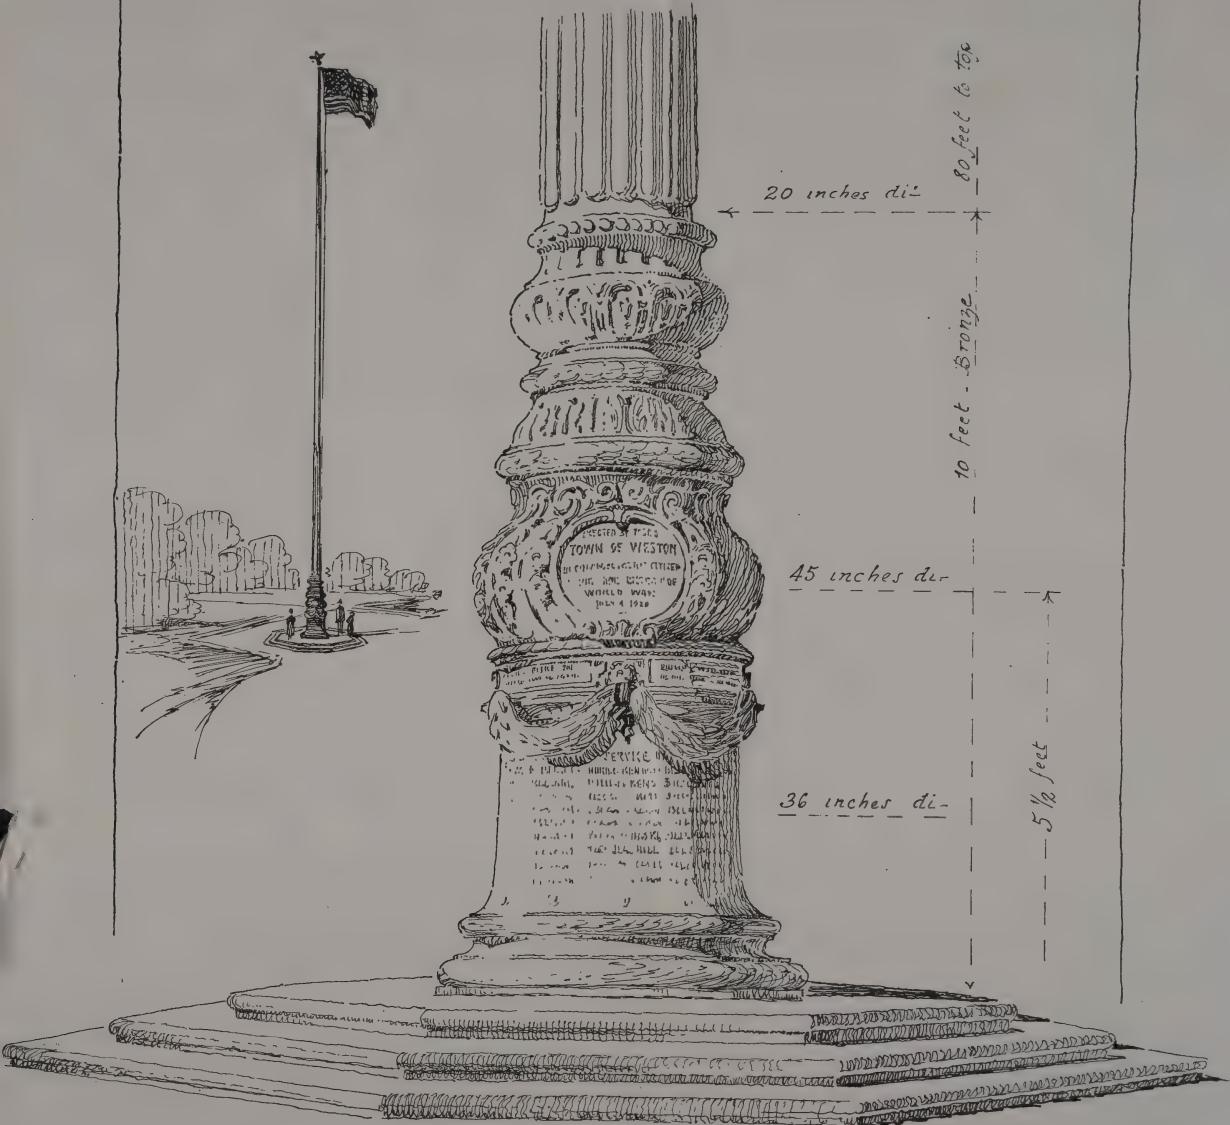

HAROLD S. GRAVES, *Chairman.*

SUGGESTION FOR MEMORIAL FLAG POLE
—TOWN OF WESTON—

SW Mead Jan. 1920

REPORT OF LOCAL MOTH SUPERINTENDENT.

TO THE BOARD OF SELECTMEN:

Gentlemen,—In my report of last year I called attention to the fact that practically no damage was done to the foliage of the trees in Weston by insect attack in 1918 and also to the fact that the respite was only temporary. This last statement has proved only too true. In the summer of 1919 the gypsy moth caterpillars were very abundant and, due to the wet season, difficult to control by spraying operations. The coming season, judging from the great increase in egg clusters, will undoubtedly mean many caterpillars and much stripping of foliage. At this time I must urge that all owners of fine trees do their utmost to have the egg clusters treated with creosote and, at the proper time, to have their trees sprayed.

Owing to the unexpected advance in cost of labor, teams, and supplies the appropriation asked for last season was insufficient, and for the present year I recommend an appropriation of \$5,000.

Respectfully submitted,

EDWARD P. RIPLEY,
Local Moth Supt.

REPORT OF THE TREE WARDEN.

TO THE BOARD OF SELECTMEN:

Gentlemen,—We have been fortunate the past year in doing a large amount of pruning of street trees, also removing many dead ones. A number of large chestnut-trees on the roadside, or so adjacent to it as to be dangerous to the public, have slowly succumbed to attacks of the chestnut-tree blight and have been taken down. Some of these I hope to replace this season with other varieties.

I recommend for the coming year the usual appropriation of \$500.

Respectfully submitted,

EDWARD P. RIPLEY,

Tree Warden.

REPORT OF THE SUPERINTENDENT OF STREETS.

WESTON, MASS., December 31, 1910.

To THE HONORABLE BOARD OF SELECTMEN:

Gentlemen,—I respectfully submit herewith the annual report of the work done by the Highway Department for the year ending December 31, 1910.

There has been expended for the general maintenance of highways \$22,307.56, divided among the several streets of the Town approximately as follows:—

	<hr/>	<hr/>	<hr/>
	—	—	\$41,003.55

The above table will show that, in spite of the enormous increase in both labor and materials during the last three years, the general maintenance and repairs on our roads have not increased correspondingly.

* \$9,000 contributed by the Misses Case and Mrs. Freeman.

Relocation of Newton Street.

The greatest improvement in Weston streets during the year has been the relocation of Newton Street at its junction with Wellesley Street. The old blind, sharp corner with its narrow approaches has now been eliminated and a smooth curve with an unobstructed view has been laid out in its place. With the completion of this work the old corner, widely known as one of the worst between Boston and Worcester on the automobile route, will be a thing of the past.

Much credit for this improvement belongs to the Misses Case and to the late Mrs. Freeman, for it was only through their generosity in the gift of both land and money that the relocation could be made at this time.

The improvement necessitated a relocation of the line of both Newton and Wellesley Streets, and in connection with the same about twenty-four hundred feet of new road had to be built, or about fifty-four hundred square yards of surface.

The road surface was built twenty feet wide of bituminous macadam (asphalt), and on each side there was built a five-foot gravel shoulder, which, when it is oiled with a light oil and properly maintained, will give the street an appearance of a thirty-foot width.

The cost of the work to date has been \$16,845.92, and as it will cost about \$150 to clean up the work, the total cost will be about \$17,000, \$9,000 of which was contributed by the abutters. The work has cost more than was estimated because of two reasons: first, the estimate called for an eighteen-foot surface, and we built the surface twenty feet wide; and secondly, the quantities of excavation and borrow were increased, due to the fact that I put a foot of sub-grade gravel under the stone in order to strengthen the foundations.

Maintenance Work.

Outside of the construction work done at the Relocation of Newton Street, most of the other work of the season consisted of maintenance.

The same general plan mapped out in 1918 was followed last year. As a rule three independent gangs were working in three different parts of the town at the same time, but at times all the men were gathered in one group for some special, heavy work.

During the winter months only the leaders of each gang were kept busy, and they mowed brush or screened sand as the weather permitted, doing the snow and ice work when necessary.

During March the frost came out of the ground and all our efforts were spent in getting sandy and stony gravel on those roads that broke up and rutted.

The gravel and earth roads were then scraped and shaped and rolled. All this scraping, shaping, and rolling we tried to get finished before the roads had dried out, for they are pliable when moist and very hard to work when they have become dry and hard.

South Avenue was smoothed up in those places where it had broken up, and tar was applied to the surface.

The tar-coated roads were kept patched with mixtures of tar and stone, and on the whole were fairly smooth.

Bituminous Material.

About 38,000 gallons of bituminous material were used during the year, which compares with an average of about 65,000 gallons for the four previous years. The material used consisted of about 10,000 gallons of Tarvia B, 10,000 gallons of "K. P." Tarvia, 16,000 gallons of 30 per cent. Texas Asphaltic

Oil, and 2,000 gallons of 40 per cent. and 60 per cent. Asphaltic Oil.

The Tarvia B was used on the old tar roads, and the 16,000 gallons of 30 per cent. Asphaltic Oil was used to cover about eleven miles of gravel road that had not been treated before. This 30 per cent. oil proved to be very satisfactory and was applied for about \$112 per mile. It requires no sand covering and does not mat the road, but it prevents the road from ravelling and blowing away in dust.

Ledge and Boulders.

The work of freeing our roads of boulders and outcrops of ledge was carried on last year as in the two previous years. Ash Street, Oak Street, and Pine Street were carefully gone over, and all the stones that projected into the road surface were drilled and blasted or dug out.

Sidewalk Work.

Very little sidewalk work was done during the year, as we were short of men the latter part and were busy with construction work during the rest of the year. However, the sidewalks must get some attention during the coming year, as many of our tar walks are in bad shape. I am recommending \$1,500 to be expended on re-coating the old tar walks.

On Merriam Street, where an appropriation was made last year to make a beginning on a sidewalk between North Avenue and the Silver Hill bridge, a layout has already been made by the County and it is hoped that the work can commence early this year.

The sidewalk on Newton Street was extended from Ash Street to Mr. Upham's house and should be carried further, as Newton Street is very narrow, and it is dangerous for people walking in the road, especially on Sunday or at night.

Catch-Basins and Culverts.

All catch-basins and culverts were cleaned out twice during the year, once in the spring and again in the fall.

Street-Signs and Guide-Posts.

New street-signs were added at the following streets: Corner of Summer and River Street (2), Bogle Street, Winter Street (2), Brown Street (2), Viles Street, Pigeon Hill (2), Church Street. Wherever a double-faced sign would serve better, we placed them, so that they could be read from both directions.

Machinery and Equipment.

All our machinery is in good repair, or will be by spring, and will be ready for a season's run. The Autocar truck, which has now been in use three years, will not be fit for more than the present year. During 1919 it was run 11,700 miles at an operating cost of \$1,229.19 not including the driver, which makes a unit cost of 10½ cents per mile. Both rollers are in good shape. One will be fitted with a Pressure Cylinder Scarifier in the spring.

My recommendation for Machinery and Equipment is to cover the cost of the Scarifier attachment for the roller and for overhauling and putting the Autocar truck in good condition for a year's run.

Snow and Ice.

The year 1919 was an unusual year for its light snowfall. Only about \$179 was expended throughout the year, and up to December 31 of the present winter the sidewalk ploughs were not called into service once.

Since January 1 of the present winter the snowfall has been very hard and severe, and much money has already been expended on snow for the 1920 year.

Streets Laid Out During the Year.

In addition to the relocation at the corner of Winter and Wellesley Streets and the layout made on Merriam Street from North Avenue to the Silver Hill bridge, the Middlesex County Commissioners made a slight alteration in the street line at the corner of Central Avenue and Tower Hill Road. Here they rounded the corner on the east side of the road and graded a new approach and for a very small expense made a big improvement.

Recommendations.

For the coming year I would make the following recommendations :—

General maintenance	\$25,000.00
New construction	6,000.00
Sidewalks	3,000.00
Machinery account	1,500.00
Snow and ice	1,000.00
Other expenses	500.00
<hr/>	
	\$37,000.00

The total amount of the above recommendations is about \$4,000 more than last year, there being an increase of \$1,000 in each of the first four items.

The \$6,000 asked for new construction will be used in doing some of the following work :—

- (a) Re-grading Church Street at the centre of the town and in front of Old Town Hall site.
- (b) Widening Merriam Street between North Avenue and Bridge.
- (c) Re-laying wall on new line on Concord Road between overhead bridge and Central Avenue.
- (d) Putting wall back on new line on Wellesley Street east of School Street.
- (e) Improving alignment at curves on Newton Street.

I wish to again express my appreciation for the help rendered by Mr. Upham, who has acted as foreman during the year, and also to all the men of the department, most of whom have been with us for several years. They have all shown a very good spirit of co-operation.

Respectfully submitted,

RAYMOND W. COBURN,

Superintendent of Streets.

REPORT OF THE SCHOOL COMMITTEE.

The School Committee respectfully submits the following report for the year ending December 31, 1919:—

At the annual Town Meeting held on Monday, March 24, 1919, Mr. Charles O. Richardson was re-elected for a term of three years.

The Committee organized at its meeting held on April 4, 1919, by electing Mrs. Carolyn E. Burrage, Chairman, and Mr. Charles O. Richardson, Secretary.

Ten regular meetings and one special meeting were held during the calendar year.

Mr. Charles M. Eaton, Superintendent of Schools, Mr. Darius B. Vittum and Mr. Frank H. Upham, Attendance Officers, and Mr. Allan Cameron, Custodian of Buildings and Grounds, were all reappointed.

The school census taken as of April 1, 1919, was as follows:—

373 between the ages of five and sixteen.

60 five years of age or over, and under seven years.

247 seven years of age or over, and under fourteen years.

66 fourteen years of age or over, and under sixteen years.

Illiterate minors, 0.

Teachers and School Attendance.

Mr. Charles M. Eaton was duly appointed Master of the High School, and in addition the following teachers were re-

appointed as regular teachers in the schools for the year 1919-20:—

Mr. Hollis D. Hatch.	Miss Emma F. Ripley.
Miss Constance E. Burrage.	Miss Helen B. Green.
Miss Virginia Mabry.	Mrs. Helen G. Hill.
Miss Laura M. K. Fisher.	Miss Hazel M. Staples.
Miss Alice L. Hosmer.	Miss Annie R. Jameson.
Miss Marion R. Perry.	Miss Elizabeth J. Viles.
Miss Emily F. Adams.	Miss Rebecca McKenna.

And in addition to the above the following were appointed:—

- Drawing—Miss Sarah E. Jewett.
- Music—Mr. Charles E. Boyd.
- Manual Training—Mr. Philip E. Perry.

At the October meeting of the Committee, Mrs. Virginia A. Morrisey was appointed a teacher at the North School to replace Miss Elizabeth J. Viles, who had decided to discontinue teaching.

Dr. Fresenius Van Nüys was appointed School Physician to succeed Dr. Chandler Robbins. The Committee takes this opportunity to express its appreciation of the services rendered by Dr. Robbins while holding this position.

The Committee also wishes again to express its appreciation to Mr. Horace S. Sears for continuing to grant to the teachers the use of the house on Central Avenue known as the "Teachers' Lodge," which is of great assistance in the efficient management of the schools.

For the school year ending June 30, 1919, the average daily attendance has been 315. The schools were actually in session 164 days.

In connection with the retirement of Miss Viles from the teaching staff of the schools, the Committee at its October meeting passed the following resolution:—

"That the Secretary be instructed to write Miss Viles on behalf of the School Committee expressing its appreciation of the valuable services she has rendered while teaching in the schools extending over a period of forty-seven years. Also that the letter be spread upon the records and included in the next Town Report."

Acting in accordance with this vote the following letter was sent to Miss Viles:—

*Dear Miss Viles,—*The School Committee of the Town of Weston desire to express to you its deep appreciation of the services that you have rendered to the schools of the town during your connection with them, extending over the unprecedented period of forty-seven years.

Seldom does it fall to the lot of any one to influence so many lives at the beginning of their careers as has fallen to you, and that your influence has been a great power for good during all these years is keenly felt by all who have come in contact with you.

The Committee regrets exceedingly that you have now decided to sever your connection with the schools, but realizing that you must wish to enjoy a well-earned rest, it feels compelled to abide by your decision.

That the future may bring you a full measure of happiness is its earnest wish.

Sincerely yours,

(Signed) CAROLYN E. BURRAGE,
WARREN P. ADAMS,
CHARLES O. RICHARDSON,
School Committee, Town of Weston.

It further seemed desirable that some more general expression of appreciation should be extended to Miss Viles as a token of the appreciation of her many friends at the conclusion of her notable term of service. Accordingly a committee was appointed and the following invitation sent out to her friends, a special effort being made to reach her former pupils as far as possible:—

1872-1919

THE PLEASURE OF YOUR COMPANY IS REQUESTED
AT A RECEPTION TO BE GIVEN TO

MISS ELIZABETH JONES VILES

IN LOVING APPRECIATION
OF HER LONG AND NOTABLE SERVICE
AS TEACHER IN THE PUBLIC SCHOOLS OF WESTON
SATURDAY EVENING, DECEMBER THE THIRTEENTH
NINETEEN HUNDRED AND NINETEEN
AT THE HIGH SCHOOL HALL
FROM SEVEN UNTIL TEN O'CLOCK

Mrs. Carolyn E. Burrage	Mr. Horace S. Sears
Mrs. Francis H. Hastings	Mr. Samuel C. Bennett
Miss Grace L. Cutting	Mr. Charles M. Eaton
Mr. Edward Jennings	Mr. Herbert E. Tyler

In response to this invitation there was a large gathering at the school hall. A social hour was enjoyed, followed by an address by Mr. Samuel C. Bennett, during which he presented Miss Viles with a silver coffee service of three pieces from her many friends. Mr. Bennett spoke in part as follows:—

ADDRESS OF MR. SAMUEL C. BENNETT.

Miss Viles,—Many of your former pupils and many of your fellow-townsmen have come here this evening to greet you and wish you well. The pleasure of meeting you again is a sufficient reason for this gathering. But great as our pleasure is and hearty as is our welcome, the occasion has a deeper meaning.

Only a few days ago you resigned from an office you have held for forty-seven years, the office of a teacher in the district schools of this town; twenty-six of those years in the District No. 5 school on South Avenue, and twenty-one years in the District No. 4 school on North Avenue. North and South alike have profited by your example and your influence.

“*Tros Tyriusque mihi nullo discriminis agetur.*”

If in 1872 you had foreseen the future you might have borrowed the poet's thought and said,—

“South and North shall be treated alike by me.”

The length of your service would of itself attract attention, for such a term is unique in the history of Weston and has been seldom equalled in the history of the Commonwealth.

For nearly three hundred years Massachusetts has glorified in the opportunities for education which the State has afforded. And in the great scheme of education the school has been second only to the family. The profession of the teacher has always been an honored profession in this Commonwealth. Let us see how you have discharged the duties of that profession. And now I quote from the records of the School Committee contained in the official Town Reports.

The report of the School Committee for the year ending March 15, 1873, states that Lizzie J. Viles was a teacher in the District No. 5 school during the preceding school year.

The report for the following year, March 15, 1874, speaking of the District No. 5 School, says:—

“Miss Viles has had charge of the school for two years. She commenced her labors in the spring of 1872 immediately after her graduation from the high school. She is devoted to her work as a teacher and under her excellent management the school has advanced and prospered. The schoolroom is always neat and clean and everything looks inviting for study. We must call this the banner school in regular and punctual attendance.” There were fourteen pupils in the school at that time.

The next report, that of March 15, 1875, says of the District No. 5 school:—

“Of this school it is sufficient to say that it more than retains its previous good standing. Great improvement has been made during the past year notably in reading.” The number of pupils had increased to twenty-four.

In the report for the school year 1877-78 the Committee says, in speaking of the District No. 5 school:—

“This school has had the services of Miss Viles for six consecutive years. She has the confidence and co-operation of the parents and friends of the school. The discipline of the school is good. It is very gratifying to witness the care taken to keep the house in excellent repair.”

In 1879 the School Committee was increased from three members to six, and Horace S. Sears was one of the new members. In the report for the year ending March 1, 1880, the Committee says:—

“Miss Viles's eighth successive year of service has but added to her well-established reputation as a teacher.”

On February 28, 1885, the Committee says:—

“Faithful work has been done by the earnest teacher. The school has grown rapidly during the past few years and is now the second in town in numbers.” The whole number of pupils was forty-one.

On February 28, 1889, the Committee says:—

"Miss Lizzie J. Viles who has taught this school for sixteen consecutive years has presided over it during the past year. The annual examination revealed what had been shown many times before, that honest hard work has been the rule. There is abundant proof of gradual and steady advance all along the line. It is with pleasure we note the harmony existing between parents, scholars, and teacher. We congratulate the parents on the peculiar adaptability of the teacher to her position which ensures that the intellectual and moral interest will be constantly looked after."

On February 28, 1898, the Committee says:—

"The schools in Districts No. 4 and No. 5 have kept the high grade of excellence which has ever characterized them and the Committee again reports that they are fully satisfactory. These schools give the Committee no anxiety. In District No. 5 the membership and attendance have been nearly the same as last year. This school is quite as large as most teachers can well teach, but, like much that is of the best, it has no equal."

In June, 1898, you closed your long term of service in the District No. 5 school and were transferred at your own request to the District No. 4 school to fill the vacancy caused by the resignation of Miss Anna C. Coburn. And on February 28, 1899, the Committee says:—

"It is needless to say that Miss Viles has continued in the District No. 4 school the excellent work which has always characterized her teaching."

During the following years you had at times as many as forty-seven pupils attending at your school.

In 1907 the School Committee of that day sent you the following letter:—

"WESTON, March 5, 1907.

MISS ELIZABETH J. VILES,
Weston, Mass.

Dear Miss Viles.—The School Committee have recently noted that its records show that you first began to teach in the schools of the town on Monday, March 25, 1872. Within a few days it will be thirty-five years since your service began in the District Number Five School on South Avenue. Thirty-five years of continuous service is a long period, and we feel that the Town of Weston and its citizens, past and present, owe it to themselves and to you to make some public recognition of a fact which is so greatly to your credit.

It is unnecessary to say what we all are anxious to say, that your long term of service has been eminently successful and satisfactory

from the first. Times have changed and methods of teaching have changed, but for thirty-five years there has been one uniform and constant factor in the educational problems of this town. The children whose good fortune it has been to attend at Miss Viles's school have always been prepared for promotion. They have been taught, and thoroughly taught, and educated in the truest sense. Not only have they learned much, but they have been taught how to learn more. Many a pupil, now grown to manhood or womanhood, remembers with pleasure and gratitude the instruction received at your hands.

It is the still waters that run deep. The work done in your schoolroom is done so quietly that an unskilled observer might be misled into thinking that little or no work was done at all. But to one whose eyes have been opened the sight is fascinating. The dull child is encouraged; the inaccurate one corrected; the boisterous are repressed; the wayward checked; and the numerous duties of the schoolroom are faithfully discharged with a patience, energy and accuracy that are of more value, inasmuch as they are taught by a living example, than anything your pupils learn in the books.

We congratulate you on your long period of successful service in your chosen work. We congratulate the Town on its good fortune in having had you for thirty-five years upon its staff of teachers. We congratulate our predecessors and ourselves in having had your assistance in the matters entrusted to our care. We wish you many years of health and happiness to come.

Very sincerely and respectfully yours,

CAROLYN E. BURRAGE.

SAMUEL C. BENNETT.

EDWARD FISKE.

The School Committee of Weston."

But why follow the record longer? We are all familiar with it. As M'Andrew says of his engines, so we say of these forty-seven years:—

"Now a' together, hear them lift their lesson—theirs and mine,
Law, Order, Duty an' Restraint, Obedience."

The district schools have gone or are going. Their glory has departed. But your record as a district school teacher will stand so long as the records of this Town shall be preserved.

And now, Miss Viles, as a token of their affection and respect your friends present to you this service of silver, not more shining than your service to them, not more useful to you than have been to your fellow-townspeople your long and successful labors for them.

Mr. Eaton responded to the address, and during the course of his remarks presented Miss Viles with the following testi-

monial illuminated on parchment and bound in crushed levant:—

"Upon this parchment
your neighbors and friends, the
townspeople of
Weston
express to you

ELIZABETH JONES VILES
their deep appreciation of
the services you have rendered in the
Public Schools of Weston
in the long years from
1872-1919

New England has put her stamp upon the nation through such characters as yours. You have stood before two generations of children as a living embodiment of those virtues which have made our country strong in the past, and shall still make her strong in the days to come.

Devotion to duty, unselfishness, strength of will, orderliness of thought, affection for those under your charge, justice tempered with mercy and seasoned by that sense of humor which gives balance and good sense,—all these virtues have been yours.

To some such a life of teaching might seem uneventful and unimportant. Who can measure the influence that has spread from it as the slow ripples spread upon a quiet pool into whose still depths some stone has dropped. Who can tell how deeply your calm and well-poised days, your unhurried and logical words, your accurate and thorough methods have influenced the lives of those who have sat expectantly before you.

To what interwoven fibres of inheritance, to what God-given strength of character do you owe those qualities which, without other training than your own reaction on your experiences, gave you every advantage, every skilful method that wise educators try to impress on those who teach.

As those who know you and your work look back with wonder and admiration on your long years of loving patience, they unite on this day to testify their love and appreciation, and to wish for your happiness and restfulness in the years which still are yours.

WESTON, December 13, 1919."

The evening concluded with community singing and refreshments.

Appropriations.

At the annual Town Meeting held on March 24, 1919, the sum of \$38,700 was appropriated. This sum seemed ample at the time, but owing to the great increases in prices that have occurred during the year did not prove to be entirely adequate.

The School Committee now recommends for the ensuing year appropriations as follows:—

Administration, including salaries	\$900.00
Other general expenses	400.00
Teachers' salaries	24,500.00
Maintenance of buildings and grounds	2,500.00
Text-books and supplies	2,400.00
Transportation	9,000.00
Janitors' services	1,900.00
Fuel and light	4,750.00
Other expenses	500.00
Tuition	350.00
Total	\$47,200.00

While this shows quite a marked increase over the appropriations of the previous year, the Committee wishes to state that it has gone carefully over each item and feels that these appropriations are absolutely necessary to enable them to give satisfactory service.

Transportation.

The entire system of transportation has now been motorized with the exception of one route which probably will not be changed for the present. The Committee feels that a system of motors is the practical way to transport the children and believes that the Town is in sympathy with them in this matter. It is true that during the past winter the disadvantages that can occasionally occur in motor transportation have been em-

phasized to a marked degree. But as the winter has been most unusual and as the period during which motor transportation has been most difficult is short in comparison to the length of the whole school year, it is proved that the advantages greatly outweigh the disadvantages. The Committee feels, however, that the amount asked for is the smallest amount for which transportation that would be in any way satisfactory can be secured.

The Committee again calls the attention of the citizens of the Town to the dangerous grade crossing at the Kendal Green station. The greatest number of children that are transported over any one route cross the railroad at grade at this point twice daily. Every possible precaution is being taken, but it is a condition that should not exist.

Work in the Schools.

Details of the work that is being done in the schools will be found in the reports of the Superintendent of Schools and of the special teachers that follow.

Superintendent's Report.

WESTON, February 3, 1920.

Mrs. C. E. BURRAGE, Chairman Weston School Committee.

Dear Madam.—The past year, although marked by no great change or especial problem in our schools, has yet had its matters of unusual interest. To some of these I wish to call the attention of the Committee and of the townspeople.

Some of the subjects of discussion and what I have to say about them may seem but a repetition of other reports. In such cases the repetition is purposeful because the same problems are still pressing upon us.

ROUTINE SUBJECTS.

It is perhaps not strictly "modern methods" to admit that there are routine subjects in school, but no character or moral development of a child is possible without a basis of routine carefully followed. This routine should be so lightened and treated that it shall not be too heavily felt, and our schools include many activities to make the routine pleasantly bearable.

In the lower grades, our methods in reading are beyond question most successful. In the later grades and in the High School we are trying faithfully to articulate the power to read a printed page with the ability to extract its meaning with success when applied to other subjects, and with pleasure when it has to do with the appreciation and use of books from the Public Library. In this we do not always succeed, but the attempt has to deal with so many complications of present-day living that we are not sure that the blame lies with us.

Arithmetic is dealt with thoroughly and carefully. Pupils are not allowed to say that they cannot be accurate, or they can never understand. It is true that accuracy and thought in numbers is especially difficult for many children, but for that very reason they need to make unusual effort. Pupils are, however, never held back from promotion for failure in this one subject alone.

English is being treated as a mode of expression and of ideas, rather than a drill in grammar; and only such grammar as is absolutely necessary is included in our requirement. The readiness of some educators to do away with all grammar drill, appears to me a passing phase, one of the excesses of present-day ideas which will disappear with other tendencies.

The individual conferences in English in the High School continue to be very successful, and thoroughly justify the additional teachers' time which is given to them. The details of this arrangement have

suffered this year from complications of the programme, but this will be largely remedied another year.

If space permitted, I could make it plain that each of the subjects is being taught with thought and care to make it successful and valuable, and to serve the real needs of the pupils.

MAINTENANCE OF STANDARDS.

In all this work the maintenance of a standard is of the utmost importance. More than ever before, perhaps, do people shape their lives by the custom and practice of others, rather than their own inward conscience and inward standard.

In deciding what shall be considered "pass-work" in the High School, and what shall give promotion in the grades, every possible aspect of the pupils' work is considered and no unreasonable standard is maintained. Pupils who will not study persistently do not deserve promotion (though some such pupils attain it). Pupils who have an exaggerated idea of their own capacity sometimes differ sharply from our decisions on promotion. Most troublesome of all, probably, is the reasonably faithful or even painfully industrious student who seems to have no ability to learn new methods of study, and upon whom much of the instruction is therefore wasted. Failure to promote the lazy is almost always clear to every one, perhaps even to the parents of the child; failure to promote those who painfully drudge in wrong methods, and cannot or will not accept any better methods, brings the greatest misunderstandings. For this reason, and also out of sympathy for industry, such children are always promoted if possible.

The standards of the school by no means stop with the requirement of the pupils; the teachers' requirement, both from their own standards and the standard expected of them, is high and persistent. In this matter we could, if time permitted, cite many facts as evidence.

OUR GRADUATES.

One fact we may cite concerning the standard of the schools, and of their teaching—our graduates in other institutions of learning.

Given reasonable ability and genuine application to study, which must be the contribution of the pupil, the schools—and I by no means restrict the statement to the last four years, and say merely the High School—have met with persistent success in the examinations for college; and after entrance our graduates have shown that they were thoroughly grounded and equipped for permanent success.

In the case of those graduates who have gone into employment rather than further study, I believe the same thing holds true. Much

of our effort with the pupils has nothing to do with studies merely as efforts of the brain, or power to earn a living, but with good morals, earnestness, clean living, and character. This is reflected, I believe, in our graduates.

MEMBERSHIP AND ATTENDANCE.

The summary of the year's figures in membership and attendance will be found elsewhere in this report.

Total membership has increased during the last few years. The First Grade this year contains over fifty pupils, compelling the employment of a part-time assistant in this grade. A succession of such grades would force a very serious problem upon the Town for settlement, but our increases have always come in waves, and it is hardly likely that so large a number will present itself again next year.

The percentages of attendance and the record of perfect in attendance runs rather low this year. Sickness, cold weather, and difficulty of transportation account for most of this. With a few marked exceptions, our pupils present themselves at school with regularity, and take pride in good attendance.

Tardiness, however, is on the increase. Yet punctuality is the courtesy of kings, the proverb says; and in America every citizen is his own king. It is hoped that every parent whose child has in the past been repeatedly tardy will take final steps to remedy the matter.

DAYS OF "NO SCHOOL."

For two reasons Weston schools are practically never closed because of weather. First, we have no method, as may cities have, of signalling with clearness to all the citizens at once that school will close. Second, if schools are to cost their municipalities a large sum, if superintendents are to make their methods business-like and efficient, if pupils are to look upon their work with seriousness, the habit of schools which close upon almost any excuse is not to be imitated by others. Because of one of these reasons we must, because of the other of these reasons we should, keep school on school days as men go to their business—almost without any exception. High School pupils can nearly always be present, upper-grade pupils are usually better off to come despite the weather, and parents must use their own judgment about the little folks, and send them only when the weather is suitable.

HEALTH.

The oversight by the schools of the children's health, their eyesight and hearing, continues. Regular weekly inspection by the school phy-

sician does much to restrain communicable diseases, the yearly physical examination guides parents and teachers alike in their treatment of the child, and the stories of children who were stupid only because they could not see, and disobedient because they could not hear, have little room in schools where eyes and ears are yearly examined.

SCHOOL LUNCHES.

The hot lunch served at noon is a distinct help in a healthful school day. The lunch is prepared by the teacher of Domestic Science with the assistance of the pupils in her courses. In addition, nearly every girl in the High School gives forty minutes of her time once a week, and certain boys also regularly help where masculine help is needed. Only in this way can this work be done in our relatively small group of pupils.

PHYSICAL TRAINING.

No branch of school activities is under greater pressure from state and government at this moment than the department of physical training, for both boys and girls. We are doing the best we can in this matter, and doubtless are benefiting all the pupils to some degree. Three things are needed for greater success in this work: a realization by the boys and girls themselves of the importance of this training, a longer school day, giving a longer and more definite period for exercises, and a gymnasium.

Our pupils are as a whole in such good physical condition that we do not need to go to inconvenience to lengthen the school day, or to great expense for a gymnasium, but it would be very possible to arouse a greater interest in the minds of parents and pupils, and a greater appreciation of the value of the work.

SCARCITY OF TEACHERS.

Turning to another aspect of the schools, and considering the teaching force, we come at once to a very pressing problem.

Our difficulties in this matter have been confined to obtaining substitutes for teachers who are out of their places through illness; but this difficulty arises, indeed, from the fact that the teachers resident in town whom we were fortunate enough to use as substitutes are now regular teachers and therefore unavailable. If we have other places to fill in the near future, we shall find it not easy to get people of training, character, and personality to fill them.

TEACHERS' SALARIES.

Within the last year has come a thorough awakening of leaders in thought throughout this State. They have perceived that unless at once means were taken to make teaching more attractive, schools would stand empty—as they are now doing in rural districts in New England—for lack of teachers.

The first step has been taken to correct this matter, by raising salaries in almost every town in the Commonwealth, Weston among the others. This will, if continued, supply teachers. It is not enough, however, if the right kind of teacher is to be kept or obtained. I believe that the best kind of teacher is influenced by other things besides money, especially the women teachers. The love of the right kind of teacher for her pupils, her interest in their best welfare, in their development of character, and in acceptance of duty as an important factor of life, do not come primarily from salary payments.

It is an instinct, and her work is a calling. If that is not recognized, if she is not appreciated, if she is criticised for what she does, rather than helped, salary alone will not keep the right teachers at their desks. Yet increased salaries were imperatively needed, and have begun to come just in time to prevent serious trouble.

TRANSPORTATION.

The difficulties of transportation this year have been very great, and the patience of parents and teachers has been under great strain.

The change from horses to motors seemed desirable, not only to the school authorities, but to the parents as well. That children on a pleasant day should shorten their school day thirty minutes because motors took them later and brought them earlier than horses, that on a cold morning not over one-half as long a time was necessary from home to school, seemed most agreeable. It has fallen, I think, as a blow upon parents and school authorities alike that a dependable motor in good weather may be a great disappointment in bad going; and that a dependable motor even in good weather has to be sufficiently strong and heavy, and sufficiently set aside for school purposes, as to be rather expensive.

Unless Weston, which in the distribution of its population is a rural town, is to have rural schools of a sort now past, the Town will have to pay for transportation; and it has become plain that dependable transportation by motor is expensive.

VISIT TO NOTABLE SCHOOLS.

In April a friend of the schools presented to the Committee a sum of money sufficient to pay the expenses of the Superintendent on a visiting trip to certain notable school systems. To this trip the Superintendent devoted his April vacation week and the school week immediately following.

It is impossible to give anything more than a summary of the places visited. The first school inspected was the huge "East Technical High School" of Cleveland; next the much-advertised schools of Gary, Ind.; then the school system of Rockford, Ill.; then the notable "Mary Institute" of St. Louis, a private school for girls, under the direction of Mr. Edmund Hamilton Sears, once of Weston; then the very modern and wide-awake school system of Montclair, N. J.; and last another huge school, a grammar school of the New York City schools, in Long Island City.

In all these schools various experimental and novel plans were being tested, some doubtless to be rejected, some to become permanent.

SIX-THREE-THREE SYSTEM.

One tendency of educational methods is becoming increasingly clear, a tendency which, it seems, will not be abandoned, but will become universal, the so-called six-three-three system. Of these divisions, the first six, the lower six grades of school systems, is, in general, in satisfactory condition to-day from the point of view of educators and parents. The last three, the upper years of high school, are also functioning rather well, in preparation for college work, or in cities like Cleveland, Boston, or New York in great technical schools which are more like colleges than ordinary high schools, except for the age of their pupils.

The middle period, the seventh, eighth, and ninth (or Freshman) years, is the subject of much more controversy than either of the others. In many towns already these three are being placed together under the name of junior high schools. The name is to some extent misleading, but perhaps no better name has yet been found.

The junior high school, to use its customary name, has in practice several advantages over the present system; it draws to its service teachers who are specialists and college graduates, it permits a greater choice of studies, and it uses the departmental method of teaching. The departmental method of teaching has in the past been used in many grade schools, but under ordinary conditions it has shown grave losses of efficiency which have often counteracted its gains.

In order properly to make use of this system in Weston we should need to make considerable changes, chief of which is a wholly different building from that which we now have for the grades, one modelled rather on the plan of the High School, with a central assembly-room and with class-rooms.

The total number of pupils in our schools is so small, and their membership is so homogeneous at present, that we do not need to be in haste or use violent methods to achieve this change: but it seems plain that the next important change in our system, when the extra expense of a new building and the additional cost of the new arrangement can well be met, should be to this six-three-three arrangement of our course. If other towns can afford it, Weston can.

I do not recommend this for immediate action, but I do consider the change inevitable and necessary within a few years.

GIFTS.

In addition to the gift of money for the travelling expenses of the Superintendent, as stated before, the pupils are receiving prizes of money totalling one hundred and eighty dollars, from Miss Marian Roby Case, for essays on the subject of "Ten Greatest Americans."

This contest—or rather six different contests, for the Grades VII. to XII. inclusive are entirely separate from one another in the competition—appealed strongly to the children. In each of the six grades there will be one first prize of \$10, two second prizes of \$5 each, and four third prizes of \$2.50 each. These papers are being read and judged by a reader who does not know the writers, and awards will be read at the time of the ensuing midwinter exhibition.

Such a contest on such a subject is an admirable thing for the children, and Miss Case deserves and has our grateful appreciation.

The school has also received a considerable number of interesting and valuable photographs of buildings and scenes of Europe and especially of Italy and Capri, from Mrs. William P. Andrews. These views were collected by the late Miss Abby Andrews, formerly a resident of Weston.

THE CHARLES J. PAINE SCHOLARSHIP.

This scholarship continues to furnish incentive and help to Weston boys. It is held this year by Falconer McCullough, Freshman at the Massachusetts Institute of Technology.

PUBLIC OCCASIONS.

Since the last report, the public occasions of the schools have been four,—Prize Speaking, High School Play, Parents' Day, and Graduation. Programs of all are appended:—

PARENTS' DAY, WESTON PUBLIC SCHOOLS.

FRIDAY, MAY 23, 1919.

Parents and other friends are cordially invited to visit the schools on this day. In addition to the regular class-work, attention is invited to the following special features.

EXHIBIT OF WORK in Manual Training, Sewing, Cooking, and Drawing, with a variety of written work in Arithmetic, History, Geography, English, and similar classes, will be shown in the High School Hall during the school day, and also in the evening, from 7 to 9.

Special exercises will occur as follows:—

8.40- 9.20, High School Singing.

9.20- 9.40, Grade I.

9.40-10.00, Grade II.

10.00-10.20, Grade III.

10.20-10.50, Grade IV.

10.50-11.00, Recess and Fire Drill, Primary Grades.

11.00-11.20, Marching Exercises, Grades VII. and VIII.
 and High School.

11.20-11.30, Exhibition Gun Drill, Boys of Grades VII. and VIII. and High School.

12.00-12.15, Informal French Play, High School Hall, Sophomore French Class.

12.15-12.35, Grade V.

- 12.35-12.55, Grade VI.
 12.55- 1.00, Fire Drill, Grammar Grades.
 1.00- 1.30, Grade VII.
 1.30- 2.00, Grade VIII.
 2.00, Ceremony of Lowering the Flag.

During this time the usual classes of the schools will be in progress. Classes in Manual Training may be visited from 9 to 10.15, and from 10.15 to 11.30. Classes in Sewing in the Grammar School may be visited at the same hours. In the High School especial attention is called to the Class in Cooking at 10.40, in Sick-Room Training at 12.40, in Sewing at 1.20, and in Laboratory Physics and Chemistry at 10.00.

Lunch will be served to visitors from 11.30 to 12.00 in the High School, second floor, by the pupils of the Domestic Science Department.

CONCLUSION.

I have tried to summarize the events of the year. It has been a year of no notable or serious events, but it has been a year of hard work, and, in a way, a year of struggle. The wave of pleasure-seeking which seems to be sweeping over the world after the Great War has engulfed too many of the young people along with their elders. Against this it is the plain duty of the schools and the thoughtful people everywhere to struggle, and in this effort our schools have tried to do their part.

Yours truly,

CHARLES M. EATON,
Superintendent of Schools.

Drawing.

I was very glad to be in Weston to attend Parents' Day. The exercises were full of interest. It was a pleasure to meet so many of the parents and former pupils. The exhibitions of the daily work, the sewing, the manual training and mechanical drawing, and the freehand drawing and manual art were very instructive. I was able to see the results of the course in drawing and manual art from the first grade through the High School and note the progressive steps. I was able to take notes and see the weak points which I hope to strengthen this year. The handwork received much worthy praise. The charcoal-

drawing, the sketches in pencil and water-color and the poster work of the High School also received due credit.

The Italian photographs left by Miss Andrews and now kept in the cabinet in the drawing-room are greatly appreciated. They are excellent for reference and illustration. Such a collection is very valuable and helps the pupils to see the beauty of the world and to appreciate the beautiful in art.

Opportunity was given me to visit some of the schools in Springfield, June 11, 12, 13, and see the art and handwork of a city which has always held high rank in this department. They have a permanent exhibit at the office of the school department in the Municipal Building. I examined the work and gained many helpful suggestions.

Since September I have had a conference with the Primary teachers, visited the North School and had a conference with the Grammar teachers once in three weeks. These conferences prove very satisfactory. One teacher wished a set of trees for illustration. I had the pupils of the Freshman class prepare a set for her. Another teacher wished some letters large enough to be seen across the room. I had some of the Junior class cut and mount the alphabet, which has been used in nearly all the rooms.

My endeavor has always been to make the work in drawing both artistic and practical.

Music.

TO THE SCHOOL BOARD, WESTON :

MUSICAL APPRECIATION.

The study of music is peculiar; it stands alone in one respect, that it has so much within itself to help and to hinder. No other study has the same place in the hearts of the people. Merchants say that "when a thing is well bought, it is half sold." Surely, then, when a subject is well liked, it must be half taught. How much of misunderstanding and mediocrity in the handling it will stand, and still hold interest. When both teacher and scholar alike feel so kindly to the subject taught, there ought not to be anything other than the greatest success in securing results, were it not for the other factor which has to be kept equally in mind, and that is, this pronounced liking for music does so much towards giving satisfaction and easily presenting the gaining of the very thing sought after—the knowledge of music itself.

It is an easy thing to whistle a tune. So many things are offered in the field of music to make old-fashioned work unpopular. The best

that music affords can be bought for a dollar or two. That which has taken others years of hard knocks and discouragements to accomplish, is offered freely. I am not speaking here of quality of music. Much that is good and more that is bad is offered alike. The point is, that these labor-saving devices are destroying us. Those who appreciate money most are those who have earned it. Hard knocks and discouragements are absolutely necessary for growth and good health in music study. Those who are helped most are always the weakest. The singers that do not have the help of strong, leading melodies, and have always to fight their way, as do the altos, always gain a large freedom and understanding. It might be asked, why, then, is it that boys do not forge ahead farther than they do? A boy is not easily understood. Some things interest him greatly,—lots of things do. For two or three years he holds his place pretty evenly with the girls, then he allows them to take the lead. I believe that from the fifth grade to the eighth grade the boys and the girls should sing separately. It would pay to try it out, I think. Self-consciousness stands in the way of the boys at a time when they ought to be doing well and have no vocal troubles to embarrass them. It might be arranged to have the boys sing alone as fifth grade for two years, then for two years as seventh grade; the girls singing at the same time, two years as sixth grade, and two years as eighth grade. Girls are constantly held back by the boys, and the boys, having the girls so willing, are constantly helped and get no independence. Appreciation for music must come through hard work.

A new piano would be a very useful and enjoyable adjunct in the Primary building, upstairs.

Respectfully,

CHAS. E. BOYD.

Report of Instructor of Manual Training.

TO THE COMMITTEE:

The pupils in the grades are still showing the normal, healthy instinct of the boy to construct something, and it is a continual effort to find the balance between the things they would like to make and the things they should make in order to insure a steady increase in knowledge.

Many have learned to design for themselves—to a limited extent, of course—some simple models, and they are always encouraged to bring me their ideas that we may work them out together.

The open class on Wednesdays after school has proved itself to be

a profitable as well as popular institution, and pupils of all ages in the grades and in the High School avail themselves of the opportunity.

The High School class in manual training is doing creditable work, and the members show good interest in the problems incident to the course.

Insistence is made that a thorough understanding be acquired of the tools and materials used in the work.

This is presented in as interesting a manner as possible by means of visits to shops or a modern mill, or by manufacturers' pamphlets, of which it is generally possible to obtain a generous supply.

The class in Mechanical Drawing now numbers fourteen in the regular course, with a volunteer class of nine who attend an afternoon class twice a week through genuine interest in the work.

The pupils are doing very good work as a whole, and certain individuals are executing drawings of real excellence when their experience is taken into account.

A number of the pupils who have passed on to higher institutions have testified to the value of this course in preparing them for work of the same or similar nature which they have encountered since leaving the High School.

This is, of course, gratifying to the instructor, but these results have been made possible only through the fine spirit of co-operation and faithful effort on the part of the pupils themselves.

Very sincerely,

PHILIP E. PERRY,
Instructor Manual Training.

Report of School Physician.

TO THE CHAIRMAN OF THE SCHOOL COMMITTEE, WESTON, MASS.:

During the present year the health of the school-children has been very good. The occasional cases of scarlet fever and measles were confined to a few families.

The carriage and the posture, especially of the High School pupils, shows decided improvement in the last two years.

Very respectfully yours,

F. VAN NÜYS, M.D.

REPORT OF SWIMMING-POOL COMMITTEE.

TO THE BOARD OF SELECTMEN:

Gentlemen,—The Committee reports another year of usefulness of the swimming-pool under charge of Mr. G. M. Palmer, Jr., whose report is submitted herewith.

It is very evident that extensive repairs are necessary to put the pool and connecting buildings in proper condition. So long as this property belongs to private interests we cannot recommend any extensive outlay by the Town; on the other hand, the benefit of the pool accrues to the people of Weston, and it seems hardly fair to expect the individual owners to expend the considerable sum necessary to put the property in suitable condition. We recommend, therefore, that the Weston Athletic Association be asked to deed the property to the Town free of cost, and that the Town appropriate an adequate amount to put the plant in first-class condition. This, we estimate, will cost approximately \$5,000.

(Signed) CHARLES M. EATON.
 EDWARD B. FIELD.
 GEORGE FABER.

WESTON, MASS., February 2, 1920.

TO THE SWIMMING-POOL COMMITTEE:

1919 is one more addition to the long list of summers in which the swimming-pool has proved of inestimable benefit to the boys and girls of this town, in spite of the fact that long and frequent periods of rainy and cold weather resulted in an attendance about 500 beneath that of 1918. The total number of those using the pool during the summer, from June 3 to September 13, was 2,580, of whom 1,290, or 50 per cent., were boys. It is interesting to note that considerable increase in the relative percentages was made by the boys, who in the past few years have been 15 or 20 per cent. behind the girls.

As usual, a number of girls and boys learned to swim. The annual carnivals took place on September 12 and 13, and were a great success. During the entire season the most scrupulous care was paid the cleanliness of the water, which was changed every week, and the pool thoroughly scrubbed.

In the annual reports of the past few years numerous recommendations have been made, but for various reasons have not yet been acted upon. In my opinion, the time has come when these things should not be put off any longer. Before the pool opens again next summer, it is imperative that these improvements be made. The most important are as follows:—

(a) The filter. In its present condition it is practically useless, and, as all the water should be filtered during its stay in the pool and when run out at the end of the week, it must be fixed at once. Tests have been made, and I recommend that changes in accordance with these be entirely finished before the season of 1920.

(b) Bottom and sides. These are made of concrete, and years of washing and scrubbing have worn them to a point where they so readily catch the dirt that it is only with the greatest difficulty that they can be cleaned. A smooth surface of some sort *must* be put on if the water is to be kept to its standard of cleanliness, which is a vital factor in determining the popularity, and hence the usefulness, of the establishment.

(c) Canvas. The canvas which has been strung along the top of the fence around the sides of the pool is now completely worn out. I suggest either an entirely new set or an increase in the height of the fence itself to cover that space. The fence also badly needs repair.

(d) Spring-board stand. There must be a new stand for the spring-board installed before the pool is used again, for the condition of the old was close upon dangerous at the close of the past season.

(e) Platform around water. The present platform, or walk, around the edge of the water is made of wood, and necessitates every spring the expenditure of a large sum of money for fixing rotten boards, etc. It would not only save money in the end to install a permanent walk, but would render it safer for actual use. There are other minor points which need not be set down here. But I cannot urge too strongly upon the committee and the townspeople the immediate consideration of the above improvements, if the pool is to be kept to its accustomed pitch of efficiency and usefulness in the coming season.

I should like to thank very cordially Mrs. Dunn, Miss Barton, and Miss McAuliffe for their unfailing hearty co-operation and help during the season.

Respectfully,

G. M. PALMER, JR.

REPORT OF THE PARK COMMISSIONERS.

The Park Commissioners submit the following report for the year ending December 31, 1919:—

The Board organized by the election of Horace S. Sears as Chairman and Arthur L. Coburn as Secretary. Much has been accomplished during the past year in the further development of the Town Common, and in realizing the plans and hopes of these many years. As the work progressed it assumed larger proportions than we anticipated. To remove the stone walls and fill in the land to a reasonable grade on Central Avenue and Church Street—to blast out the many rocks and boulders on the low land and finish off the surface to a smooth and pleasing level—to rebuild the wall on the sharp and ungradable pitch by the elm-tree and to save the tree itself in its unprotected location—and to tear down and remove the old Town Hall and adjacent horse-sheds—all combined to make a long, expensive, and difficult undertaking, trying alike to our patience and finances. For the work of finishing off the grounds we were fortunate in securing the same contractors who built the new Town Hall and graded off the surrounding land so acceptably—the Leighton Mitchell Company. The removal of the old Town Hall and horse-sheds was successfully done by the City Building Wrecking Company. To strengthen and preserve the beautiful elm whose existence was endangered when the protecting sheds were taken away, we called in the services of Ralph B. True, who, as a tree expert, did all that could be done to save its life and beauty for future years.

It was with a certain tinge of sadness that the citizens of the town watched the demolition of the old Town Hall with

all its precious associations and memories—of merrymakings and parties—of the schoolroom which it sheltered long ago, with its happy school life, exhibitions, and graduation exercises—of the pleasant library room when the library was in its small beginnings—and of patriotic and philanthropic meetings when the walls echoed with eloquent and moving appeals. But it is pleasant to remember that its crowning service was during the last year of its honorable existence, when it offered spacious accommodations for the devoted and energetic labors of the workers for the Red Cross and French Wounded during the great war. And our thoughts cannot but go much further back to the same magnificent work that these walls looked down upon two generations ago when the country was nearly torn asunder by our own Civil War, and the noble patriotic women of this old town worked indefatigably for the comfort and relief of our soldiers whose saving remnant still lives in the Grand Army of the Republic, whom we all venerate and hold in undying gratitude and affectionate regard.

The Park Commissioners keenly realize that the Common has been purchased and developed at the expense of the Town, which has been most generous in its appropriations. It should now serve the convenience, pleasure, and well-being of the citizens of the town on as broad and inclusive lines as possible. Any suggestions to this end would be heartily welcomed.

The construction work is now nearly at an end. With the building of paths, the setting out of a few trees, and the seeding of the grounds for a firm green turf, it only remains thereafter to care for and maintain the grounds in a manner that will be creditable to the town, and justify the large expense that has gone into their development.

The only land takings that remained unsettled were those belonging to the First Parish, who have presented to the Town free of all expense the strip of land which they owned twenty feet in width, and running the entire length of the horse-sheds, as well as their right to use these twenty-four sheds in per-

petuity. For this generous gift the Park Commissioners, on behalf of the Town, have returned their appreciative thanks to the First Parish.

It has been of great and lasting benefit to the Town that we were able to retain the continued services of Arthur A. Shurtleff as landscape architect. Mr. Shurtleff has had the direct supervision of the work on the Common, and his professional skill, advice, and good judgment have been of exceeding value. At our request Mr. Shurtleff has written the following letter regarding the work on the Common, and of the results achieved, which we are confident will be of general interest:—

BOSTON, January 12, 1920.

HORACE S. SEARS, Esq.,
Chairman, Board of Park Commissioners,
Weston, Mass.

*My dear Mr. Sears,—*Following your request, I send you the following comments upon the work under way at the Weston Common during the past year:—

At the beginning of the year, the lower portion of the Meadow was in an unsatisfactory condition owing to former construction operations, standing water, and a shabby condition of grass. The footwalk constructed previously lacked a satisfactory terminus at the southerly end. The foundations of Cutting's store, barn, sheds, also the substructure of the Town Hall, and the long row of carriage sheds were exposed. An unsightly and dangerous condition existed at the retaining walls along the westerly and easterly ends of the Common. The work of improvement has included the removal of these retaining walls, and the obliteration of all exposed foundations. The low ground in the bottom of the Meadow has been filled sufficiently to prevent water from standing and the high stone retaining wall forming the support of the carriage sheds has been repaired, extended, and provided with a continuous parapet to serve as the margin of the overlook under the great elm tree.

All this work has been thoroughly done by an experienced contractor. Many boulders have been removed from the southerly slope of the Common and have been used either in construction work or in filling. As a whole, the work was arranged for economy to make cuts and fills balance as far as possible, but as a large amount of the material excavated consisted of large stone and boulders, it became necessary to

haul in fine material to cover this coarse fill in order to make a proper foundation for the grass areas. Fortunately, this extra filling material was secured near at hand and at very little cost except for hauling. In addition to the above work, the ground around the great elm tree has been graded and a path has been constructed to form a convenient and useful approach to the overlook. Shrubbery was planted late in the fall at the base of the overlook. Special pains were taken to secure shrubbery of native kinds like those already growing on the northerly side of the Common. The plants used included Common Barberry, Dogwood, Common Hazelnut, Witch Hazel, Viburnums, and Woodbine.

The Common is rapidly approaching completion and the hopes we have had for it will be realized as soon as the bare ground is covered with grass. Throughout the Metropolitan District, this work in and around Weston Common has become widely known on account of its extent, but more especially on account of the systematic planning for the future which carried it steadily to completion during a term of years. Until the present time, few municipalities have attempted farsighted improvements of this nature which could not be realized in a single season. Most of the communities around Boston are now confronted with problems which will require a long term of years for their solution and they have studied with interest the systematic methods adopted by the Town of Weston and the success which has crowned the work there.

Very truly yours,

(Signed) ARTHUR A. SHURTLEFF.

For the financial exhibit for the year we refer to the auditor's report. And mindful of the necessity of economy in town expenses we recommend an appropriation for the current year of not exceeding \$4,000, and we believe that after this year the Park Commissioners will require a much less annual appropriation to maintain adequately the Park System of the town.

Respectfully submitted,

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

The Trustees of the Town Library report as follows:—

A short time ago they were notified that under the terms of the will of Caroline S. Freeman the Library is to receive the sum of ten thousand (10,000) dollars by way of additional endowment. The clause in her will which makes this gift is as follows:—

"To the Weston Town Library in said Weston the sum of ten thousand (10,000) dollars, the said sum to constitute a fund to be known as the Rosamond Freeman Fund, the income to be applied to the purchase of books or other desirable acquisitions preferably for the children's department. While I do not make it as a condition of this legacy that the Library shall be kept continuously open during the afternoon and evening of those days on which it is open, still it is my desire and wish that it may be so kept open."

This splendid gift is the final benefaction of one who for a long time has been a special friend of the Library, and who has given generously to it. For some time prior to her death Mrs. Freeman bore the expense of keeping the Library open during the period between the afternoon closing and the evening opening of those days on which it has been the practice to have the Library open during the evening.

The Trustees feel that it is their duty to attempt to comply with the wish expressed by Mrs. Freeman in her will in regard to this matter of keeping the Library open. If it is possible to arrange so to do without greatly increased and unprofitable expense it will be kept open as requested.

This gift is one of great importance to the Library, because although her expressed wish makes it binding upon the Trustees to expend the income of the fund, or so much thereof as may be necessary for the children's department, still it makes

it possible to use the income of other funds for the general purposes of the Library and to carry out what the Trustees believe to be the policy best calculated to make of the Library an institution of real value to the community. The income from invested funds together with the money appropriated by the Town now amounts to a sum sufficient to enable the Trustees to map out a policy of growth. It is no longer necessary to spend the larger part of our income for the purchase of current fiction and works of popular interest. It is possible now to go about the work of building up the departments of the Library which are lacking, and of gathering a collection of books which shall be a well-rounded one, reasonably complete in all departments. It is intended to make a sort of survey of the Library and to attempt to secure for the different departments those books which are recognized as being essential to a library which attempts to provide a reasonably complete collection of books relating to the different subjects or departments into which the Library is divided by the classification adopted as a basis for its catalogue.

The Trustees wish that the people of the town made more use of the Library as an educational institution than they do, and that more people were familiar with the books which the different departments contain. It is the hope of those in charge of its affairs that the pupils in the High School and older students in town, as well as all persons interested in books, will make an effort to familiarize themselves with the books which the Library contains. It requires some effort so to do. The use of the catalogue does not give the acquaintance which can be gathered by going to the shelves and examining the books which are there, and the townspeople are asked to do this, and those of them who are interested in any special subject are asked to suggest books relating to that subject for purchase.

It is with the idea of making the use of the Library more popular that the Trustees' Room has been fitted up with shelves and the Justin E. Gale Collection placed there. This

collection will be ready for use in a few weeks, and every one who is interested in history, economics, or social problems, is urged to visit it and to make use of the room for the purpose of study.

Mrs. Freeman's gift emphasizes the most pressing physical need of the Library, which is a separate children's room. The Trustees have considered the matter of building an extension to the alcove now used for this purpose and also the plan of adapting a portion of the room under the main stack room for use as a children's room. It seems as if the latter plan were the better of the two, because this room is a very bright and cheerful room, and can be made attractive with the expenditure of a comparatively small sum. It is probable that an architect will be asked to make a study of this problem and that a report with specific recommendations concerning a new children's room will be made to the Town in the near future.

There have been received during the year from Mrs. Charles C. Barry of Melrose, formerly Maria Warren of Weston, and from Mr. Brenton H. Dickson, certain valuable pamphlets consisting of sermons and addresses preached by early ministers of the town upon occasions of special interest, as for instance one preached by Samuel Woodward, A.M., at Lexington, on April 19, 1779, "in commemoration of the great distress and wonderful deliverance of God's people on the 19th of April, 1775, where hostilities began and where the bloody war between Great Britain and her colonies commenced." These will be placed in our collection of records relating to the early history of the town. This collection already contains many pamphlets of great interest. It is to be hoped that the townspeople will interest themselves in it and that many other papers and documents relating to the early history of Weston and its vicinity may find their way into the library's archives.

Respectfully submitted,

ARTHUR T. JOHNSON.

REPORT OF THE AGENT AND MILK INSPECTOR.

TO THE BOARD OF HEALTH OF WESTON:

Gentlemen,—Following is my report as Agent and Milk Inspector for your Board during the year 1919:—

DISEASES DANGEROUS TO PUBLIC HEALTH.

The Board had eighty-nine cases of contagious diseases reported to it during the year. Table I. shows the monthly distribution of the various cases. In Table II. the number of cases reported during the ten-year period is shown. The year 1919 shows quite a drop in the number of cases reported during 1918.

Diphtheria.

The diphtheria total for 1919 came to seven. Of this seven, four of the cases occurred in adults. One of these adults lived on a farm producing milk, and the Agent was obliged to culture all employees on the farm to be sure that there were no carriers of the disease and that the milk would not be a vehicle of infection for others. Two other cases occurred in children of the same family. One child had been ill and the physician was only called when a second child began to ail. Protective doses of antitoxin were given to the other members of the family and further spread was checked.

Influenza.

During January, sixteen cases of influenza were reported, and the disease subsided until the fall, when three more cases were reported, making a total of nineteen cases for the year.

Measles.

Measles made its appearance in Weston in May, and from then on, thirty-one cases of the disease were reported.

Scarlet Fever.

Three cases of scarlet fever were reported to the Board. The cases were all promptly quarantined, and the disease was checked to the individual cases. No second cases occurred in the same household.

Tuberculosis.

Four new cases of tuberculosis were reported to the Board. This is one less than the cases reported for 1918. Persons who had influenza should take all precautions against this illness. Owing to the peculiar action of this illness on the lungs, persons having had it are made more susceptible to tuberculosis. Thorough periodical medical examination is the best safeguard against this disease.

LABORATORY EXAMINATIONS.

During the year the Board of Health laboratory examined eighty-two specimens. They were as follows:—

For diphtheria	68
Blood for typhoid fever	1
Sputa for tuberculosis	13
Total	82

The details of these examinations have been covered in detail in the Agent's monthly report to the Board. The laboratory has also made regular monthly examinations of the town water supply, and the bacterial content has been found low, and the water free from pollution.

MILK ANALYSES.

The results of the monthly examination of the Weston Milk supply are tabulated in Tables III. and IV. These tables give

in a concise way the results of the year's work. More and more people are beginning to understand the food value of milk, and are paying more and more attention to the necessity of having a milk rich in food value and a clean fresh supply. The dealers in Weston have co-operated with the writer, and the splendid results attained insure Weston of a milk supply equal to the best of any supply in the state.

COMPLAINTS.

The Board has received comparatively few complaints during the year. In two instances the Agent found no nuisance. The Board prosecuted in court one plumber who violated the plumbing rules and regulations of the Board.

Respectfully,

H. E. BERGER, JR.,

Agent and Milk Inspector.

REPORT OF THE INSPECTOR OF ANIMALS.

TO THE BOARD OF SELECTMEN:

I report as follows, relative to inspection of animals in the town of Weston from January 1, 1919, to December 31, 1919:—

87 herds inspected.

697 cows inspected.

161 young cattle inspected.

22 bulls inspected.

The above cattle kept in 87 barns.

87 stables reported clean.

549 swine, comprising 51 herds.

12 sheep inspected.

2 goats inspected.

Cattle condemned—4 for tuberculosis.

Yours respectfully,

EDWARD JENNINGS,

Inspector of Animals.

PLUMBING INSPECTOR'S REPORT.

TO THE BOARD OF HEALTH OF THE TOWN OF WESTON:

Gentlemen,—I herewith submit to you for your approval my report as Inspector of Plumbing for the year 1919.

The work in this department has increased very materially during the past year. This is a natural condition due to the inactivity of building business during the war and the reaction which has now set in. This is particularly noticeable in the increase in the number of new buildings which have been erected during the year.

The number of old buildings with new installation of plumbing shows some increase while the number of additions and alterations to present system of plumbing is quite large for Weston. The type of plumbing as installed in Weston under the supervision of this department is excellent. This is made possible by the co-operation of the Master Plumbers with this department, and in one instance only was it necessary to institute court proceedings against a plumber who was fined for installing work without a permit, a violation of the plumbing ordinance.

During the year there were thirty-two applications approved by the department, which consisted of fifteen applications for new buildings, ten applications for old buildings, and seven applications for additions and alterations to present system of plumbing.

During the year there were fifty-five inspections made of plumbing work in its various stages of construction.

Very respectfully,

THOMAS F. HARRIS,
Plumbing Inspector.

Owing to the rapidly increasing demands of the State Department of Standards, your Sealer would recommend that the appropriation for this department be increased to \$100.

CHARLES A. FREEMAN,
Sealer of Weights and Measures.

REPORT OF THE CEMETERY COMMISSIONERS.

The Cemetery Commissioners respectfully submit their report for the year ending December 31, 1919:—

At the annual Town Meeting, Mr. Samuel W. Mead was elected a Commissioner for three years, succeeding Mr. Abercrombie, who declined re-election.

The work on the cemeteries has been acceptably carried out by Mr. Frank H. Upham, who has maintained the high standard of former years.

The Commissioners again urge as many as can to have their lots put under perpetual care to ensure the continued attractiveness of their, as well as adjacent, lots.

For an itemized account of receipts and expenses see the Auditor's report.

The number of interments during the year was 20.

Residents	11
Non-residents	9

During the year the Commissioners have received \$1,250 for the perpetual care of lots, which amount has been turned over to the Town Treasurer for permanent investment.

The receipts are as follows:—

Marking Graves	\$43.00
Care of Lots	443.00
Sale of Lots	1,194.40
Sale of Flowers	1.00
Sale of Wood	90.00
Foundations and Labor	57.50
Perpetual Care	1,250.00
Amount paid Treasurer	\$3,078.90

It is the belief of the Commissioners that the present available land within the cemetery bounds will not be adequate for the future needs of the town, and, therefore, they recommend that they be empowered to secure additional land for cemetery purposes, the cost not to exceed the amount in the sinking fund.

The Commissioners recommend an appropriation of \$4,000 to cover the expenses of the coming year.

BENJAMIN R. PARKER,
EDWARD B. FIELD,
SAMUEL W. MEAD.

Cemetery Commissioners.

TOWN OF WESTON

RECORDS, 1919

TOWN RECORDS, 1919.

Town Warrant.

COMMONWEALTH OF MASSACHUSETTS,
MIDDLESEX, SS.

To any Constable of the Town of Weston,

GREETING:

In the name of the Commonwealth you are hereby required to notify and warn all the inhabitants of the said town qualified by law to vote in elections and town affairs to meet in the Town Hall in said town on Monday, the 24th day of March current at 12 of the clock noon, at which time the polls will be opened and may be closed at 4 of the clock in the afternoon, to bring in to the subscribers their votes for the following town officers, each to be designated and all to be voted for in one ballot, namely:—

One selectman for a term of three years,

One overseer of the poor for a term of three years,

One overseer of the poor for a term of two years,

One assessor for a term of three years,

One member of the school committee for a term of three years,

A treasurer and collector,

An auditor,

One library trustee for a term of three years,

A library treasurer,

One trustee of the Merriam fund for the silent poor for a term of three years,

One park commissioner for a term of three years,

One cemetery commissioner for a term of three years,

One member of the board of health for a term of three years,
Seven measurers of wood and bark,
Three surveyors of lumber,
Three fence viewers,
A pound keeper,
Five field drivers,
Seven constables, and
A tree warden.

Also to vote "Yes" or "No" in answer to the question "Shall licenses be granted for the sale of intoxicating liquors in this town?"

and for the following purposes, to wit:—

ARTICLE I. To choose by separate ballot a moderator.

ARTICLE II. To hear and act upon reports of town officers and committees.

ARTICLE III. To determine whether the Town will appropriate the sum of \$100 or some other amount, and elect a director for demonstration work in agriculture and home economics, the money to be expended by, and the director to serve in co-operation with the County Agricultural Trustees of the Middlesex County Bureau of Agriculture and Home Economics under the provisions of Chapter 273, General Acts of 1918.

ARTICLE IV. To determine whether the Town will vote to authorize the Selectmen to sell or otherwise dispose of the South School property, land and buildings, situated at the corner of South Avenue and Ware Street.

ARTICLE V. To choose a committee of not more than seven persons to investigate the matter of a proposed road extending Newton Street from its junction with Ash Street across to Central Avenue at some point near the junction of Concord Road and Central Avenue; to obtain the advice and assistance

of the State Highway Commission in regard to the proper location of such road, and the cost of its construction, to confer with the owners of the land which it would be necessary to take if such road is laid out in accordance with the advice of the Massachusetts Highway Commission, and to report concerning the matter at a future town meeting.

ARTICLE VI. To raise and appropriate by borrowing or otherwise such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, or as may be required to defray the expenses of the Town for the ensuing year; and especially to act upon all the appropriations asked for or proposed by the Selectmen or by any town officers or committees in their reports.

And you are to serve this Warrant by posting three attested copies thereof according to the vote of the Town; namely, at the Town-house, at the Kendal Green post-office, and on the town bulletin board at the junction of South Avenue and Newton Street and Park Road, seven days at least before the time appointed for said meeting.

Hereof fail not; and make due return of this Warrant with your doings thereon to the Selectmen at the time and place of said meeting.

Given under our hands this sixth day of March in the year of our Lord one thousand nine hundred and nineteen.

ALFRED L. CUTTING,
HERBERT E. TYLER,
Selectmen of the Town of Weston.

Pursuant to the within Warrant I have notified and warned the inhabitants of the Town of Weston, according to order.

GEORGE FABER,
Constable of Weston.

MARCH 7, 1919.

In pursuance of the foregoing Warrant, the inhabitants of the Town, qualified to vote in elections, met in the Foyer of the Town Hall, on Monday, March 24, 1919, at 12 o'clock noon, and were called to order by Brenton H. Dickson, Jr., Town Clerk, who read the Warrant calling said meeting and the return thereon of the officer who served the same upon the inhabitants. The Foyer had been fitted up as a polling-place in conformity with the laws of the Commonwealth.

The "cards of instructions," "penalties to voters," and "specimen ballots" were posted in accordance with the laws of the Commonwealth. The following Election Officers were appointed by the Selectmen and sworn to the faithful performance of their duties by the Town Clerk:—

Election Officers: Melvin B. Sherman.

George Faber.

Ballot Clerks: Robert H. Trask.

Thomas W. Scott.

Tellers: Herbert E. Tyler.

Jeremiah Sliney.

Henry A. Wheeler.

The ballot-box was opened publicly and shown to be empty. The register on the box was set at zero, and the box locked and the keys delivered to Melvin B. Sherman.

A package of ballots containing 260 women's ballots and 700 regular ballots was delivered to the Ballot Clerks by the Town Clerk, who took their receipt therefor.

The polls were then declared open.

At 3.30 o'clock P.M. the ballot-box was opened and 50 ballots taken therefrom.

At 4 o'clock P.M. the polls were declared closed.

The number of names checked on the Voting Lists used by the Ballot Clerks and the Election Officer in charge of the reception of ballots was 83. The automatic register of the ballot-box read 83 and upon opening the box 33 ballots were taken therefrom. These together with the fifty previously

taken totalled 83, including one woman's ballot for School Committee. These ballots were counted and recorded and declaration thereof made in open town meeting by the Moderator and were for the following Town Officers and on the License question:—

While the polls were open, the ballot-box was in charge of Melvin B. Sherman and the voting list used in connection therewith was in charge of George Faber.

The votes were canvassed and counted by the tellers.

The ballots cast at the election, the tally sheets used in counting the votes, and the voting lists used in the distribution and deposit of the ballots were enclosed in envelopes and properly sealed and endorsed.

The above-mentioned envelopes, together with the ballot-box, the keys thereto, and the seal, were forthwith delivered to the Town Clerk by the Presiding Election Officer; who in this and all other matters connected with the election followed and caused to be followed the "Laws relating to Elections" as prepared by the Secretary of the Commonwealth.

Town Clerk.

March 24, 1919.

THE COMMONWEALTH OF MASSACHUSETTS,
MIDDLESEX, ss.

At a meeting of the County Commissioners for the County of Middlesex, holden at Cambridge, within and for said County, on the first Tuesday of January, in the year of our Lord one thousand nine hundred and nineteen.

The inhabitants of Weston, in said County, by their petitions to said Commissioners—among other matters—pray that Wellesley Street near School and Newton Streets, may be relocated; also, that Newton Street from Wellesley Street to South Avenue, all in said Weston, may be relocated, as will more fully appear, reference being had to the petitions filed of record in the case.

The Wellesley Street petition was presented to the County Commissioners at their meeting holden at Cambridge, within and for said County, on the first Tuesday of June A.D. 1917, and the Newton Street petition was presented to said Commissioners at their meeting holden at Cambridge on the first Tuesday of January A.D. 1916; and at said meetings said Commissioners ordered notice to be given to all persons and corporations interested therein of the time and place when and where said Commissioners would meet for the purpose of viewing the premises and hearing the parties as by their orders of notice on file and of record will more fully appear. And at adjourned meetings said relocations were adjudged to be of common convenience and necessity, and thence said petitions have been continued to this time.

And now the said Commissioners make partial return of their proceedings in the premises, as follows; said Commissioners having given notice as the law directs, met at the Commissioners' office, in said Cambridge, on the sixteenth day of September, in the year nineteen hundred and sixteen, in the case of Newton Street, and at the same place on the tenth day of January, in the year nineteen hundred and nineteen, with respect to Wellesley Street, when and where the parties appeared.

The premises having been examined, and the parties fully heard, said Commissioners proceeded to relocate said Wellesley Street, from School Street to a point beyond its junction with Newton Street, and said Newton Street from Wellesley Street to a point near its junction with Ash Street, reserving for subsequent action their return with respect to Newton Street from Ash Street southerly to South Avenue.

The following is a true description of said streets as hereby relocated:—

Beginning at a stone bound in the southeasterly line of Wellesley Street which is at the beginning of a course bearing North 36° 14' 30" East 532.78 feet as established by the said Commissioners by their return dated January 6, 1914, said

bound being near the junction of said Wellesley Street with School Street; thence from said stone bound on said course continued southwesterly (South 36° 14' 30" West) 335.2 feet to a point; thence from said point bearing to the left and southwesterly with a curve of 720 feet radius 796.18 feet to a point in the easterly line of Newton Street, said point being southerly of Ash Street and in the position shown on the plan to which reference is hereinafter made. The above course described, together with the curve, form the line connecting said southeasterly line of Wellesley Street with the easterly line of Newton Street.

Then beginning at a point in the westerly line of School Street near its junction with Wellesley Street and as shown by the plan; thence on a curve of 439.5 feet radius bearing to the right in a southwesterly direction tangent to the line of School Street 553.19 feet to a point; thence tangent to said curve 132.54 feet to a point; thence bearing to the left with a curve of 513.79 feet radius 99.69 feet to a point in the present northerly line of Wellesley Street.

Then beginning at a point in the present southerly line of Wellesley Street distant southwesterly 65.92 feet from the last-mentioned point in said northerly line; thence easterly on a curve of 665.01 feet radius bearing to the right 134.54 feet to a point; thence tangent to said curve 56.69 feet; thence on a curve 335.41 feet radius bearing to the right 126.06 feet to a point; thence on a curve of 80.32 feet radius bearing to the right 134.39 feet to a point which is 50 feet distant measured at right angles from the curved line first described of 720 feet radius; thence parallel to said southeasterly line on a curve of 770 feet radius bearing southerly and to the left 284.90 feet to a point; thence bearing to the right with a curve of 226.68 feet radius 149 feet to a point in the northwesterly line of Ash Street.

Stone bounds shall be set to mark the lines above described.

The above-described lines are intended to conform to a plan of said premises entitled "Plan of the Relocation of Wellesley

and Newton Streets, Weston, as ordered by the County Commissioners, 1919," on which the above-described lines are shown in red. The highways as thus relocated are to take the place of that portion of Newton Street which now exists between Ash Street and Wellesley Street and that portion of Wellesley Street which exists between its present connection with School Street and the westerly termini of the northerly and southerly lines of Wellesley Street above described, and the said portions of Newton and Wellesley Streets are discontinued.

And the Commissioners determine and order that said Town of Weston shall on or before the first day of July 1, 1919, lay open, construct, and complete said highways as thus relocated so that at least eighteen (18) feet of the width thereof shall be surfaced with bituminous macadam at least six (6) inches in thickness, laid on a suitable subgrade of gravelly or stony material so as to afford a good foundation. Outside of the width of eighteen (18) feet on each side thereof, gravelled shoulders at least five (5) feet in width shall be graded and rolled with the macadam so as to present a finished roadbed at least twenty-eight (28) feet in width. Drainage shall be provided so that water collected at the edges of the roadbed shall be disposed of by proper culverts and pipe drains to proper outlets. The whole shall be done in a workmanlike manner to the acceptance of the Commissioners.

The Commissioners allow until the fifteenth day of April next to remove timber, wood, and trees.

The Commissioners having considered the question of damages sustained by the owners of lands over which said highways are thus relocated determine that no damages are sustained and none are awarded. The said Town of Weston shall pay all damages, costs, and expenses which any party may by legal process obtain in consequence of this relocation.

The highways as thus relocated are declared public highways.

In these proceedings Alfred L. Cutting, Esquire, a resident of Weston and a County Commissioner, took no part, and

Frederick P. Barnes, Esquire, of Newton, in said County, an Associate Commissioner, acted in place of said Cutting.

IN WITNESS WHEREOF, WE, the said Commissioners, have hereunto set our hands this twenty-first day of March in the year of our Lord one thousand nine hundred and nineteen.

ERSON B. BARLOW,
WALTER C. WARDWELL,
FREDERIC P. BARNES,
Associate Commissioner.

Warrant.

COMMONWEALTH OF MASSACHUSETTS,
MIDDLESEX, SS.

To either of the Constables of the town of Weston, GREETING:

In the name of the Commonwealth you are hereby required to notify and warn the inhabitants of said town who are qualified to vote in Primaries to meet in the Town Hall, Weston, Tuesday, the twenty-third day of September, 1919, at four o'clock P.M. for the following purposes:—

To bring in their votes to the Primary Officers for the NOMINATION of Candidates of Political Parties for the following offices:

Governor	for this Commonwealth.
Lieutenant-Governor	for this Commonwealth.
Secretary of the Commonwealth	for this Commonwealth.
Treasurer and Receiver-General	for this Commonwealth.
Auditor of the Commonwealth	for this Commonwealth.
Attorney-General	for this Commonwealth.

Councillor	for 6th Councillor District.
Senator	for 1st Senatorial District.
One Representative in General Court	for 13th Representative Dist.
County Commissioner	for Middlesex County.
Two Associate Commissioners	for Middlesex County.
District Attorney	for Northern District.

And for the ELECTION of the following officers:—

District Member of State Committee for each political party for the 1st Senatorial District.

— Members of the Democratic Town Committee.

Nine Members of the Republican Town Committee.

Delegates to State Conventions of both political parties.

All the above candidates and officers are to be voted for upon one ballot.

The polls will be open from 4 to 8 P.M.

And you are directed to serve this warrant by posting attested copies thereof seven days at least before the time of said meeting as directed by vote of the town.

Hereof fail not; and make return of this warrant with your doings thereon at the time and place of said meeting.

Given under our hands this eighth day of September A.D. 1919.

(Signed) ALFRED L. CUTTING,
B. L. YOUNG,
H. E. TYLER,

Selectmen of Weston.

I, George Faber, Constable of Weston, hereby certify that I have served the within warrant as therein directed, namely, by posting on the tenth day of September, nineteen hundred and nineteen, the three attested copies thereof according to the vote of the Town — at the Kendal Green Post-office, at

the Town-house, and on the town bulletin-board at the junction of South Avenue, Newton Street, and Park Road.

GEORGE FABER,
Constable.

In pursuance of the foregoing warrant, the inhabitants of the Town of Weston, qualified to vote in elections, met in the Town Hall in said town on Tuesday, the twenty-third day of September in the year of our Lord one thousand nine hundred and nineteen, and were called to order at four o'clock P.M. by Alfred L. Cutting, Chairman of the Board of Selectmen and Presiding Election Officer, who read the warrant calling said meeting, and the return thereon of the officer who served the same upon the inhabitants.

In pursuance of and in conformity with the laws of this Commonwealth in relation to elections, the Town-hall had been fitted up as a polling-place, a space railed off, and nine shelves or compartments provided for the use and convenience of the voters to examine and mark their ballots. Before the opening of the polls, the package of cards of instructions, specimen ballots, etc., furnished by the Commonwealth, had been opened, and the same posted in accordance with the provisions of the Revised Laws relating thereto.

Andrew Fiske and Thomas W. Scott, whom the Selectmen previously had appointed Ballot Clerks, were sworn by the Presiding Election Officer to the faithful performance of their duties. Cornelius M. Kelliher, Election Officer, was sworn by the Presiding Election Officer.

The ballot-box was opened publicly by the Election Officer, who ascertained by personal examination, and publicly showed, that the same was empty. The register of the box was set at zero (0), and the box immediately thereafter locked.

Two packages supplied by the Secretary of the Commonwealth, marked "Town of Weston: 400 Republican Ballots, 350 Democratic Ballots," were delivered to the Ballot clerks by the Town Clerk, who took their receipt therefor. The Ballot

Clerks, who were provided with a list of the registered voters of the town, stationed themselves at the entrance to the polling-place.

The polls were then declared open for the reception of votes. At 8 o'clock P.M. the polls were declared closed.

The number of names checked on the voting list used by the Ballot Clerks in the distribution of ballots was one hundred and twenty-five.

The number of names checked on the voting list used by the Election Officer in the reception of ballots was one hundred and twenty-five.

At the close of the polls the automatic register of the ballot-box read one hundred and twenty-five. Upon opening the ballot-box one hundred and twenty-five ballots were taken therefrom. These ballots were sorted, counted, and recorded, and declaration thereof made in open town meeting by Alfred L. Cutting, Presiding Election Officer, and were for the following State and County Officers, State Committee, Delegates to State Convention and Town Committee, viz.:—

THE COMMONWEALTH OF MASSACHUSETTS,
MIDDLESEX, ss.

At a meeting of the County Commissioners for the County of Middlesex, holden at Cambridge, within and for said County, on the first Tuesday of June, in the year of our Lord one thousand nine hundred and nineteen.

Whereas, the said Commissioners by their return dated March 21, 1919, relocated and established the lines of Wellesley Street near School and Newton Streets, and Newton Street near its junction with said Wellesley Street, all in the Town of Weston, in said County, as will more fully appear, reference being had to said return, and whereas, it is desirable, with the consent of the parties interested, and there being no objection, and the change being for the best interests of all concerned to relocate the northerly line of Wellesley Street as established by said return of March 31, 1919, said Commissioners do, therefore, amend and correct their said return as follows:—

The paragraph beginning in the description of said line with the words, "Then beginning at a point in the westerly line of School Street near its junction with Wellesley Street and as shown by the plan," is changed so as to read as follows, viz.:—

Then beginning at a point in the westerly line of School Street near its junction with Wellesley Street and as shown by the plan; thence on a curve of 439.5 feet radius bearing to the right in a southwesterly direction tangent to the line of School Street 348.19 feet to a point; thence from said point on a curve of 415.88 feet radius bearing to the right 188.96 feet to a point; thence tangent to the curve 148.18 feet to a point; thence on a curve of 549.85 feet radius bearing to the left 99.73 feet to a point in the present northerly line of Wellesley Street.

The line just described is to be the new northerly line of Wellesley Street and in all other respects the return of March 21, 1919, remains unaltered.

IN WITNESS WHEREOF, WE, the said County Commissioners, have hereunto set our hands this eighth day of July in the year of our Lord one thousand nine hundred and nineteen.

Warrant.

COMMONWEALTH OF MASSACHUSETTS,
MIDDLESEX, SS.

To any Constable of the Town of Weston,

GREETING:

In the name of the Commonwealth, you are hereby required to notify and warn all the inhabitants of the said town, qualified by law to vote in elections and town affairs, to meet in the Town Hall, in said town, on the fourth day of November next, at six hours and thirty minutes of the clock in the forenoon, at which time the polls will be open, and may be closed at four hours and thirty minutes of the clock in the afternoon, to bring in to the subscribers their votes for the following officers, each to be designated and all to be voted for on one ballot, namely:—

Governor; Lieutenant-Governor; Secretary; Treasurer; Auditor; Attorney-General; Councillor; Senator; one Representative in General Court; County Commissioner; two Associate County Commissioners; District Attorney.

Also to bring in their votes for acceptance or rejection of the following questions:—

Acceptance of the rearrangement of the Constitution of the Commonwealth, submitted by the Constitutional Convention.

Acceptance of Chapter 311, General Acts of 1919, entitled "An Act relative to the establishment and maintenance of continuation schools and courses of instruction for employed minors."

Acceptance of Chapter 116, General Acts of 1919, entitled "An Act to authorize savings banks and institutions for savings, and trust companies having savings departments, to place deposits on interest monthly." (Referendum.)

And you are to serve this warrant by posting three attested copies thereof according to the vote of the town; namely, at the Town-house, at the Kendal Green Post-office, and on the town bulletin-board at the junction of South Avenue and Newton Street and Park Road, seven days at least before the time appointed for said meeting.

Hereof fail not; and make due return of this warrant, with your doings thereon, to the Selectmen, seven days at least before the time appointed for said meeting.

Given under our hands this twenty-third day of October in the year of our Lord one thousand nine hundred and nineteen.

(Signed) ALFRED L. CUTTING,
BENJAMIN LORING YOUNG,
HERBERT E. TYLER,

Selectmen of the Town of Weston.

I, George Faber, Constable of Weston, hereby certify that I have served the within warrant as therein directed, namely, by posting on October 27th, 1919, the three attested copies thereof according to the vote of the Town — at the Kendal Green Postoffice, at the Town-house and on the town bulletin-board at the junction of South Avenue, Newton Street, and Park Road.

GEORGE FABER,
Constable.

Annual Election, November 4, 1919.

In pursuance of the foregoing warrant, the inhabitants of the town of Weston, qualified to vote in elections, met in the Town Hall, in said town, on Tuesday, the fourth day of November, in the year of our Lord one thousand nine hundred and nineteen, it being the Tuesday next after the first Monday in said month, and were called to order at six hours and thirty minutes of the clock in the morning by Alfred L. Cutting, Presiding Election Officer and Chairman of the Board of Selectmen, who read the warrant calling said meeting, and the return thereon of the officer who served the same upon the inhabitants.

In pursuance of and in conformity with the laws of this Commonwealth in relation to elections, the lower Town Hall had been fitted up as a polling-place, a space railed off, and nine shelves or compartments provided for the use and convenience

of the voters to examine and mark their ballots. Before the opening of the polls, the package of cards of instructions, specimen ballots, etc., furnished by the Commonwealth, had been opened, and the same posted in accordance with the provisions of the Revised Laws relating thereto.

Cornelius M. Kelliher, and George Faber were appointed Election Officers and sworn by the Presiding Election Officer, Alfred L. Cutting, to the faithful performance of their duties.

Andrew Fiske and Thomas W. Scott, whom the Selectmen previously had appointed Ballot Clerks, were sworn by Alfred L. Cutting, Selectman, and Brenton H. Dickson, Jr., Town Clerk, respectively, to the faithful performance of their duties.

The ballot-box to be used at elections was opened publicly by the election officers, who ascertained, by personal examination and publicly showed, that the same was empty. The register of the box was set at zero (0), and the box immediately thereafter locked. The key of the box was delivered to the Presiding Election Officer.

A package supplied by the Secretary of the Commonwealth, marked "600 Ballots, Town of Weston," was delivered to the Ballot Clerks by the Presiding Election Officer, who took their receipt therefor. The Ballot Clerks, who were provided with a list of the registered voters of the town, stationed themselves at the entrance to the polling-place.

Upon five occasions, while the polls were open, the ballot-box was opened and ballots taken therefrom for counting, it being deemed advisable so to do in the unanimous judgment of the Presiding Election Officer and the Town Clerk. The times of thus opening the ballot-box and the number of ballots taken therefrom were as follows:—

9.10 A.M.	100	ballots	
9.40 A.M.	100	"	
10.20 A.M.	50	"	
2.00 P.M.	100	"	
2.55 P.M.	50	"	
													—	
													400	ballots

At 4.15 P.M. on motion of Herbert E. Tyler it was voted to keep the polls open until 5.30 P.M.

At five hours and thirty minutes of the clock in the afternoon the polls were declared closed.

The number of names checked on the voting list used by the Ballot Clerks was four hundred and twenty-four.

The number of names checked on the voting list used by the Election Officer in the reception of ballots was four hundred and twenty-four.

At the close of the polls the automatic register of the ballot-box read four hundred and twenty-four. Upon opening the ballot-box twenty-four ballots were taken therefrom, which, together with the four hundred previously taken therefrom, made the total number of ballots cast four hundred and twenty-four. These ballots were sorted, counted, and recorded, and declaration thereof made in open town meeting by the Town Clerk, and were for the following State and County Officers and for the acceptance or rejection of various questions:—

While the polls were open, the ballot-box and the voting list used in connection therewith were in charge of the Election Officers.

In canvassing and counting of votes the regular Election Officers were assisted by Alfred L. Cutting and Herbert E. Tyler and by John Hart, Stanley Morton, Henry A. Wheeler, Charles A. Dooley, Warren P. Adams, Jeremiah Cronin, Jeremiah Sliney, and Clement S. Richardson who had previously been appointed Tellers by the Selectmen, and sworn by the Town Clerk and Senior Election Officer, to the faithful performance of their duties.

The business of the meeting being finished, the returns were filled up, signed by the Selectmen, countersigned by the Town Clerk, and sealed up in open meeting and delivered to the Town Clerk, to forward to their several places of destination.

All ballots used at the election were enclosed in envelopes, and the same properly sealed and endorsed.

The tally sheets used in counting the votes cast at the election were enclosed in an envelope, and the same properly sealed and endorsed.

The voting lists used in connection with the distribution of ballots and the deposit thereof in the ballot-box were certified

by the officers who had them in charge, and were enclosed in an envelope, and the same properly sealed and endorsed.

All the unused ballots were enclosed in envelopes and the same properly sealed and endorsed.

The sealed and endorsed envelopes above mentioned, together with the ballot-box, the ballot-box keys, and the seal were forthwith delivered to the Town Clerk by the Presiding Election Officer, who in this and all other matters connected with the election followed and caused to be followed the "Laws relating to Elections" as prepared by the Secretary of the Commonwealth.

At seven hours and five minutes of the clock in the evening the meeting was declared dissolved by the Presiding Election Officer.
